Mr J S Gena
Muskingum Watershed Conservancy District
New Philadelphia, Ohio

Dear Mr Gena:

Have talked with several members of the club following our phone conversation of this morning, and we are all very glad to know that we will be allowed to operate at the new site on a temporary basis until the lease materializes.

There was one other thing I had in mind this morning and forgot to ask you. That is the question of the water level. We are wondering why the level of the lake cannot be held several feet above last summer's level. There should not be any great loss of land, that is land of value, and it would certainly take care of the stumps, etc.

Am enclosing a membership card in our organization, and wish to welcome you as an honorary member and hope that you'll be up for some sailing.

With kindest regards, I remain,

Sincerely,

C.P. Siegenthaler
