

August 8, 1946

To the Manager
Firelands Power Company
New London, Ohio

Dear Sir:

My attention has been directed to an application for electric power made by the Mohican Sailing Club of Mansfield, Ohio, dated February 15th, 1946.

When I recently visited Mansfield, a number of the Mohican Sailing Club members conferred with me regarding their dire need for extension at about a 1/4 Mile line to their newly built Club House on Charles Mill Dam.

This Club has a membership of approximately 100, and the lack of sanitary facilities, due to the absence of power, is indeed a handicap.

Your kind assistance in giving attention to this application and advising me of the progress made, will be sincerely appreciated.

Respectfully yours,

cc: Mr. Glenn Macy, Secy
Mohican Sailing Club
907 Maumee Avenue
Mansfield, Ohio

J. Harry McGregor, M.C.
