Address reply,
Glenn Macy,
907 Maumee Ave.,
Mansfield, Ohio

Dear Sir:

Our club has a club house under construction at the present time located on the south west shore of Charles Mill Lake near Mifflin.

We are ready at this time to install the electric wiring and wish to make application form line extension and service from your organization.

Until we hear from you we will not know just where to locate the power line box on the building, and request that a service man from your office make a call and advise our proper procedure.

Our membership comprises a sizable group and will appreciate this requested power service as soon as possible.

Please contact the writer and I will arrange to have someone at the clubsite whenever you can have your man make the inspection.

Yours very truly,

Glenn Macy, Sec'y
